Thousands of persons of all ages can now judge what is the cause of their declining health. Loosing their vigor, becoming weak, pale and emaciated, having singular appearance about the eyes, cough and symptoms of Consumption.

The Thing is Working.

The Dayton Empire, alluding to the spid increase of negroes in that part of Ohio, gives us the following:

"In one shop in this city, there are four negro blacksmiths. In a certain glue factory all the hands are negroes. A white man making one dollar a day,

running a stationary engine in a certain carpinter's shop, had to leave to make room for a contraband at eighty cents per

Our Ohio contemporary dwells upon these facts with spirit and indignation, but before six months will roll around it will become used to them; and, if we are not egregiously mistaken "eighty cents" per day will be quite acceptable to any mechanic whose labor is reduced to competition with that of runaway or contraband negroes. In the Southern counties of there are hundreds of these contrabands now engaged in harvesting, but there are day for their services. Up as far as Dauphin county, wherein is located the Capital of our State, this runaway labor has crowded out free white and free negro labor too. In and around Harrisburg, there are several hundred contrabands, some of whom are laboring in the field for twenty-five cents per day. We have heard of one philanthropic Abolitionist, living a short distance from Harrisburg, who had a number of that in the midst of great public trial and blacks engaged at the liberal sum of ten calamity, of persecution for devotion to cents (the Buchanan standard,) per day, and after he could use them no longer, and fearing that they would become a bur-
